C21 COOLER SHELVING SYSTEM

C21 shown in cooler door

New C21 Shelf

Optional Wall Bracket

Numbered Uprights

Description:

- The C21 Cooler Shelving System is the premium shelving system for the walk-in cooler -- features easily adjustable shelves that maximize the space in the cold vault
- Now even easier to use! Innovative spring-loaded levers allow for one individual to reposition fully loaded shelves
- Reduces wasted space
- Shelves feature structural crossbars for extra strength
- Greater product visibility - The C21 does not need to be mounted to a wall, allowing the unit to be more accurately positioned in alignment with cooler lighting

STOCKMASTER

Description:

- Complete inventory management system that allows retailers to take control of the walk-in cooler. Organize and manage full and partial cases in an organized, safe environment.
- 2 Versions available:
 - **Stockmaster** - 18" rear stationary cart depth
 - **Stockmaster Plus** - 24" rear stationary section depth
- Rear stationary sections create a location for full cases to be stored off the ground before they get transferred forward for product staging
- Front mobile section manages broken and partial cases creating easy access to load glides for consumer sales
